

The Value of Anestand[®]

The first and only
anesthesia stand to
safely and securely
keep all supplies where
they're needed...
...can also be
one of your best
weapons in
combatting infections.

Of all the many safety
and security features
Anestand offers,
perhaps the single
greatest is how it
helps health systems to
lower HAIs.

Anestand can
provide value in safety,
compliance, and
convenience.

As soon as you use it,
you'll wonder how
you ever managed
without it.

 Anestand[®]
The anesthesia stand that
keeps everything right at hand.

The facts about hospital acquired infections (HAI) are among the best reasons to use Anestand.

HAI FACTS:

✓ Every single day, 1 in 3 hospitals will have a patient acquire an HAI.

✓ Studies show a lack of compliance with hub disinfection, even though hub contamination is a known cause of HAIs.

✓ Infections are drastically lowered by disinfecting IV hubs.

ANESTAND FACTS:

✓ A small investment could help in compliance, save time and quickly pay for itself.

✓ By having supplies and medications organized and easily available with IV port ready, Anestand aids in patient safety.

✓ The bottom line: Anestand could help prevent costly infections and save money by helping anesthesia providers save OR time.

Provider Benefits.

Having IV port ready for site alcohol scrub makes disinfection (and compliance) easier — Anestand keeps your IV port ready for scrubbing.

By keeping medications immediately available and infusion ports clearly defined Anestand provides additional safety.

By keeping supplies immediately available, Anestand helps make RSI (rapid sequence inductions) safe.

During COVID, Anestand assists anesthesia providers as an extra pair of hands, while other healthcare personnel are being asked to keep distance from the airway.

Anestand can help

health systems save lives, lower costs and improve compliance. All at the same time.

CDC, JCAHO, SHEA, and other organizations require cleaning the port with every injection — Anestand helps your facility and providers comply with these regulations. Patients with an HAI stay 19 additional days, or \$1.2 million in HAI treatment and/or lost revenue. — For a small fixed cost your facility could get a large return on investment.

Keeping supplies organized on a tray may prevent dropped items and reduce replacement costs — Anestand makes it far easier to keep supplies organized and right at hand.
